

Earth Day is celebrated every year on April 22nd. It is a day to learn about nature and protecting our planet. Here are a few options for Family Fun Break this weekend.

Earth Day April 22nd

Get ready to engage in Earth Day activities in your area!

Activities to do all month long:

- Head to your local garden center and decorate your home with flowers. Perennials come back every year!
- Play a clean-up game. Provide your child with gloves and a trash bag. Whoever fills up their trash bag first wins!
- Feed the birds. String cheerios on yarn and hang them from trees.
